● SECTION 01

# Running a school on paper & spreadsheets costs you every day

Most schools use a mix of registers, WhatsApp groups, Excel sheets and memory. It works — until it doesn't. Here is where the hours and money quietly disappear.

### Hours lost to admin

Attendance, fee registers and report cards done by hand eat up staff time that should go to students.

### Fee leakage

Missed dues, no reminders and manual receipts mean money slips through the cracks each term.

### Scattered records

Student info lives in ten places. Finding one child's history means hunting through files.

### Weak parent comms

Parents feel out of the loop. Notices get lost in bags; important updates never arrive.

### Lost admissions

Enquiries come in and cool off. Without follow-up, interested families quietly go elsewhere.

### No clear picture

Management can't answer simple questions fast: How many students? How much collected? Who's absent?

15+ hrs

staff time lost weekly to manual paperwork

8–12%

of fees typically uncollected each term

1 in 3

admission enquiries lost to poor follow-up

## ● COMMON QUESTIONS

## Questions you might be asking

**“Is it hard for my staff to learn?”**

No. It's designed to feel as simple as a phone app. We train everyone and give simple guides. Most staff are comfortable in a day.

**“What about our old data?”**

We migrate it for you — from Excel, registers or another system. You start fully loaded, nothing re-typed.

**“Do parents need to be tech-savvy?”**

Not at all. The app is simple, and parents without smartphones still get SMS updates.

**“What if we need something custom?”**

Report cards, ID cards and workflows are tailored to your school. Larger custom work is quoted separately.

**“Does it work on slow internet?”**

Yes. It's lightweight and works on modest connections and low-end phones.

**“Can we start small?”**

Absolutely. Begin with a few modules and turn on more whenever you're ready — no re-setup.

**Guarantee**

**We stand behind our work.** If we don't deliver what's in this proposal during onboarding, you don't pay for that period. Simple as that.
